

Internet Gateway Firewall Appliance

For most businesses today, the internet is their lifeline to productivity and revenue. However, your business' internet connection also puts you within a few keystrokes of every cyber-criminal on the planet.

World-class firewall protection from Dell/SonicWALL®, managed by POPP, is simple and affordable and helps ensure your business/customer information doesn't fall into the wrong hands.

Are you ready to secure your business network?

Top reasons to purchase a firewall:

- **Security** - SonicWALL appliances with a valid SSS¹ subscription receive continuous updates on existing and emerging threats and perform deep packet inspection to detect hidden malware and attacks.
- **Connected Workforce** – securely connect branch offices using only an internet connection. No need for dedicated point-to-point connections. Enable authorized employees to work from home or on the go.
- **Productivity Protection** – easily and dynamically prevent employees from wasting time and putting the company at risk by blocking websites and other online content not related to business productivity.
- **GeoIP Blocking** – allows you to restrict internet access to/from specific countries, dramatically reducing your business' visibility to cyber-criminals.
- **Load Balancing / Automatic Failover** – businesses with multiple internet connections can load-balance traffic between them. Automatic Failover ensures that your business remains productive even if one connection goes down.

Top to Bottom:
SonicWALL TZ270W, TZ370, TZ470, TZ570, TZ670

Visit <https://www.sonicwall.com/products/firewalls/entry-level/> to learn more. When you're ready, a POPP engineer will consult with you and recommend the model that best meets your needs.

Available Models:

SonicWALL Model <i>wireless models also available</i>	Purchase From ¹ <i>includes 1 Year SSS</i>	1 Year SSS Renewal <i>after first year</i>	Recommended for WAN bandwidth up to ² <i>with SSS</i>	Site-to-Site VPNs	Mobile User SSL VPNs ³
TZ 270	\$785	\$355	750 Mbps	50	50
