Linksys N600 Dual Band Wi-Fi Router delivers superior Wireless-N technology for reliable home networking

Upgrade to the high-quality speed and range of Wireless-N technology with the Linksys N600 Dual Band Wi-Fi Router (E2500), an ideal addition to larger households and home offices. The N600 Router features dual bands with up to 300 Mbps + 300 Mbps—enough to simultaneously support web surfing, streaming high-definition multimedia, online gaming and running data-intensive applications. The N600 Router also leverages MIMO technology, a key element in the Wireless-N standard, to enhance the router's coverage capabilities and eliminate dead zones throughout the home giving users the most out of their wireless network.

Linksys software allows you to easily customize settings or quickly add new devices to your network. In addition, you can create a separate password-protected guest network; limit access and establish time limits to certain websites via parental controls; quickly access advanced network settings; use the Broadband Speed Meter to measure your connection speed; and perform regular automated update checks for firmware and software with the option to install.

Key Features and Benefits

- **Enjoy Wireless-N technology:** Simultaneous dual-band speed up to N300 Mbps (2.4 GHz) + N300 Mbps (5 GHz)* maximizes data throughput.
- **Easy setup:** Linksys setup software makes connection between the router and a home wireless network complete in three easy steps.
- **USB port*:** USB 2.0 for sharing photos, video, data files or a printer across your network.
- **Advanced security:** With WPA2 encryption and SPI firewall, you can be confident content on your wireless home network will remain protected.
- **Control and customize your Wi-Fi network:** With Linksys software you can create a separate password-protected guest network and even limit access and establish time limits to certain websites via parental controls.

N600

DUAL BAND Wi-Fi® ROUTER E2500

PACKAGE CONTENTS

- Linksys N600 Dual Band Wi-Fi Router N600, E2500
- CD-ROM with Setup Software and Resources
- Ethernet Cable
- Power Adapter

MINIMUM SYSTEM REQUIREMENTS

PC: Wi-Fi enabled with CD or DVD drive, Windows® XP SP3, Windows Vista® SP1 or later, Windows 7, or Windows 8

Mac: Wi-Fi enabled with CD or DVD drive, Mac OS® X Leopard v10.5.8 or later, Snow Leopard v10.6.1 or later, Lion v10.7 or later, or Mountain Lion v10.8

Web Browser: Internet Explorer® 8, Safari® 5 (for Mac®), Firefox® 8 or Google Chrome™

Specifications are subject to change without notice.

An active, customer-purchased Internet Service Provider broadband account is required for connection of this router and other connected computers and devices to the Internet.

Some devices may require additional wireless adapters or an Ethernet cable to connect to this router.

Specifications:

Wireless Standards with Link Rate

- IEEE 802.11n (up to 300 Mbps for 2.4 GHz/up to 300 Mbps for 5 GHz*)
- IEEE 802.11g (up to 54 Mbps*)
- IEEE 802.11a (up to 54 Mbps*)
- IEEE 802.11b (up to 11 Mbps*)

Wireless Operating Spectrum:

Simultaneous Dual-Band
2.4 GHz and 5 GHz

Wireless Security:

Wi-Fi Protected Setup™
WPA®/WPA2® encryption
SPI firewall
WEP encryption

VPN Support:

PPTP pass-through
IPSec pass-through

Ports:

1x Internet
4x Ethernet
1x USB
Power

Frequency Band:

2.4GHz and 5GHz
(simultaneous dual-band)

Peak antenna gain:

2.4GHz antennas:
Antenna 0 (chain 0): 2.5 dBi
Antenna 1 (chain 1): 4 dBi
5GHz antennas:
Antenna 0 (chain 0): 4 dBi
Antenna 1 (chain 1): 5 dBi

Antenna type:

Internal PIFA

Transmitted Power (EIRP power):

2.4GHz: 19.92 dBm
(measured max. average)
5GHz: 22.78 dBm
(measured max. average)

Prod Height: 3.5 cm
Prod Width: 18.01 cm
Prod Length: 22.5 cm
Prod Weight: 0.27 kg
Unit Height: 6.2 cm
Unit Width: 22.9 cm
Unit Length: 31.12 cm
Unit Weight: 0.7 kg
Case-Pack Height: 47.96 cm
Case-Pack Width: 32.72 cm
Case-Pack Length: 54.61 cm
Case-Pack Weight: 12.1 kg
Case Pack Quantity: 6

*Maximum performance derived from IEEE Standard 802.11 specifications. Actual performance can vary, including lower wireless network capacity, data throughput rate, range and coverage. Performance depends on many factors, conditions and variables, including distance from the access point, volume of network traffic, building materials and construction, operating system used, mix of wireless products used, interference and other adverse conditions.

*May require a software/firmware update available for download at linksys.com/support.
